

Community Testing Sites

(updated 7/7/2021 e.s.)

Community testing sites are free. You do not need a doctor's note nor medical insurance to get tested, you will not be asked about your immigration status, and most test results are available within 2-5 days.

Most testing sites are able to test all ages unless otherwise indicated and all CORE-run testing sites can test ages four and older. Parents of infants are encouraged to check with their primary care providers before testing.
